## **ADMISSION & ACADEMIC STANDING COMMITTEE (Policy)**

### **Annual Report to Senate for 2010-2011**

Rosemary Jotcham (Secretary)

#### **Purpose of Committee:**

To interpret and to apply the conditions of admissions and academic standing as outlined in the University Calendar and to make recommendations to Senate with respect to its policy as it relates to admissions, failures, and academic regulations.

#### **Meeting:**

A meeting of the committee was held on December 10, 2010. A number of issues were discussed.

#### *Proposal to Raise TOEFL Score Requirement for Admission:*

The committee discussed the pros and cons of raising the minimum requirement of the TOEFL test. Open Acadia and the Admissions Office have been requested to initiate a more comprehensive review and to come back to the committee with a suite of recommendations before the number is changed.

#### *Policy for admitting independent undecided applicants directly from high school:*

The Admissions Office is encountering incoming applicants who wish to enter without declaring a degree program. Although other institutions permit this, our present structure prevents it. One short-term solution is to admit “undecided” applicants and provide them with appropriate and timely academic advising. Peter Williams, Leigh Whaley, Bob Perrins and Kyle Power agreed to work with the Admissions Office to identify faculty who could assist with this.

*Move to numeric grades:*

Due to the imprecision of GPA's, the Committee discussed the value of converting to a purely numeric grading system, and passed the following motion "that Acadia University move to numeric grades at a pace which can be supported by technology".

Respectfully submitted by the Chair,

**Board of Open Acadia  
Annual Report to Senate for 2010-11**

August 30, 2011

Board Members for 2010-2011:

Dr. Tom Herman, Vice-President Academic, Chair  
Dr. Robert Perrins, Dean of Arts  
Dr. Peter Williams, Acting Dean of Pure and Applied Science  
Dr. Heather Hemming, Dean of Professional Studies  
Ms. Rosemary Jotcham, Registrar  
Ms. Mary MacVicar, Associate Vice-President Finance and Treasurer  
Ms. Rachel C. Weldrick, Student Representative  
Dr. Jeffrey Banks, Acting Director of Open Acadia

---

The Board of Open Acadia met once over the 2010-11 academic year in April of 2011. At that meeting the following items were discussed:

- 1- A full report on the activities of Open Acadia, including enrolments, programming, staffing and upcoming initiatives.
- 2- Open Acadia was scheduled for an Academic Program Review but was bumped from the Schedule.
- 3- Open Acadia does not currently have a Mission Statement or a Strategic Plan.

1. Enrolments were up considerably for Undergraduate Online courses and EAP while down marginally for Intersession and the M.Ed. program. Overall Net Revenue was better than projected (by 7.4%). Continued growth is projected for Online programs. Although EAP has seen explosive growth over the past year this was due to an influx from one geographic region. OA is now working closely with Enrolment Services to stabilize and diversify EAP enrolments. OA continues to work closely with Schools and Departments to offer flexibility to our students via innovative programming options. Open Acadia has undergone some staffing changes and as a result has had to reorganize some of its processes. As well, the new collective agreement resulted in the development of new processes to streamline the hiring process for credit programs offered through Open Acadia. Several new initiatives are in the works.

2 and 3. Open Acadia has never undergone an Academic Program Review. Its precursor (The Division of Continuing and Distance Education) was last reviewed in 2001. Open Acadia must undergo an academic program review in the near future. This will be important to develop a strategic plan and define a clear mandate for the unit.

---

In addition to the activities of the Board of OA, the following activities of OA should be of interest to Senators:

- The Department of Fisheries and Oceans awarded Open Acadia a contract to deliver the Physical Education program at the Canadian Coast Guard College in Sydney, NS. Classes began in August.

- The first M.Ed. cohort for health professionals is scheduled to graduate in the fall of 2011. This was a partnership between Open Acadia, the Acadia School of Education and the Dalhousie Continuing Medical Education Division. Feedback from this program was very positive and OA is currently working with these partners for a new cohort.
- Open Acadia is working with the School of Education and the Nova Scotia Department of Education (along with other Academic Units within Acadia) on new Certificate Programs for NS Teachers.
- Online Learning continues to grow and Open Acadia is working with its Academic partners to develop innovative delivery methods.

Respectfully Submitted,

Tom Herman, Ph.D.  
Vice-President, Academic  
Chair, Board of Open Acadia

SENATE LIBRARY COMMITTEE REPORT  
JUNE 3, 2011

Committee membership: Kendra Carmichael, Patricia Gallant (secretary), J. Ghoshdastidar, Sarah Lochhead, C. Meuhlberger, David Piper, Gillian Poulter (acting chair), Peir Pufahl, Anne Quéma (chair), M. Tango, Kerry Vincent, Leigh Whaley, G. Wooden.

Please note that Gillian Poulter was acting chair of the Committee while Anne Quéma was on sabbatical during the fall term of 2010. This document reports on activities that took place under Gillian Poulter's chairing.

**Vaughan Library Staff Reduction**

The Committee members discussed the Library complement in the context of the Senate Library Curriculum's mandate as stated in the Senate By-Laws. The mandate includes the following:

VIII e) ii. b. "To advocate for necessary and appropriate resources for the academic functions of the library." Although the Senate Library Committee does not have the authority or the power to affect budgetary allocations to the Library sector, committee members nevertheless deemed it necessary to convey the following concerns to Senate.

On the one hand, the Library has experienced a reduction in staffing. While the full complement stands at 8, the current number of filled position is 5 (2 positions remain unfilled, and one librarian is on sabbatical). There has also been a reduction among the Library support staff. The Library has coped with those reductions by dividing and reassigning responsibilities among currently employed librarians. On the other hand, under the current Collective Agreement, the possibility of filling in the two complement positions remains thin. For information's sake, it should be noted that there is a distinction between the library complement and the faculty complement, as hiring decisions are made on the basis of two separate budgets.

**Flow of Information between the Senate Library committee and Faculties**

The mandate of the Committee includes the following: VIII e) ii. "On the Senate Library Committee, the University Librarian, liaison Librarian, students and faculty members work collaboratively.

a. To consult actively with their constituents, to offer another conduit through which constituents convey their academic concerns regarding the library and to address these concerns by various means, including the formulation of policies."

In this context, it is the responsibility of the Library to ensure faculty members are advised about librarian assignments. To ensure communication, departments typically select one of their members to act as liaison with the Library. To enhance communication and transmission of information, committee members agreed to send a letter to departments, encouraging them to invite librarians to at least one departmental meeting to discuss the needs of faculty and students as well as changing expectations for library services in the current period of staff reduction.

### **Bill C-32 and Implications of the Copyright Modernization Act**

Erin Patterson briefed the Committee on Bill C-32 whose purpose is to revise and modernize the existing Copyright Act. Although Bill C-32 had a first reading in Parliament, the second reading was delayed by the federal election. So the Copyright Modernization Act has yet to pass. Among the proposed changes are:

- The language on fair dealing for research and private study will also include education.
- It is not an infringement of copyright for an educational institution to reproduce a work or do any other necessary act to display it. However, this provision would not apply if the item were commercially available.
- Language is proposed concerning formats which either are obsolete or in the process of becoming so. This applies for instance to VHS tapes and players, which are becoming unavailable.
- Language is also proposed concerning digital rights management or locks embedded in a product. Under the proposed legislation, access to certain items may be restricted despite the fact that they might still be legislated by the Copyrights Act.

### **The Human Library Project and the Vaughan Library**

Pamela Maher presented a report on the Human Library. This project derives from the activism of a Danish group (“Stop the Violence”) which was created in 1993 after their friend was attacked. Their chief objective is to fight social prejudices. The Human Library project was initiated in 2000 (see link: <http://humanlibrary.org/>). For the first time, the Human Library was held in Wolfville on October 22 and 23 in three sessions, two at the Vaughan Library and one at the Wolfville Public Library. The purpose of the event was twofold: address issues of prejudice and connect university students with the community. The event also allowed for collaboration between the Public Library and the Vaughan Library (with support from the Department of Sociology) and has been reported as a major success among students.

### **VHS and VCR**

The members of the Committee discussed issues surrounding the use of VHS recordings at the University. At present, several classroom VCRs have broken down and have not been repaired or replaced. This situation has two potential consequences. Faculty members who wish to use VHS in class may no longer be able to do so; further, while the Vaughan Library has a large collection of VHS tapes, many of which had been purchased with Public Performance Rights, places where these tapes can be accessed are becoming fewer. At present, the Library has a VCR which can be used in the group study rooms. Technology Services has equipment which will transfer VHS to DVD, but there may be security codes to prevent copying. To address these problems, replacements might have to be purchased for key titles.

The TIE Committee met electronically between October and December to discuss Calendar Dates which were generated by Lisa Davidson, Assistant Registrar, Academic Services. Once feedback was received by the Committee, the dates were sent to several departments on campus for input on specific dates concerning their departments. Dates were edited and re-sent to the Committee. The dates received approval, by Senate, at the December meeting on December 13<sup>th</sup>, 2010. There were no other issues brought to the TIE Committee during the 2009/2010 Academic Year.

An item brought to the Committee was a possible “Fall Break”, so this along with the Calendar Dates for 2012/2013 will be on the agenda for October 2011.

**Motion for Senate Consideration - September 12, 2011 Senate Meeting  
Faculty of Pure and Applied Science Council Constitution**

**Preamble:**

An accreditation of the Environmental Science Program was conducted in the Fall of 2010. One of the “binding“ recommendations of the review was that the coordinator of the ENVIS program participate in curriculum and budget meetings and in order for that to happen, we had to modify our constitution. Specifically, we added the Environmental Science Program Coordinator as a non-voting member of the Curriculum and Budget Committees.

We also did some minor house-keeping, moving a statement of how nominations are to be made from the elections officer section to the nominating committee section and changing a reference from “Bylaws” to “Constitution”.

In most cases, text that has been deleted appears struck through and new text appears highlighted in yellow. The only exception to this was the re-lettering of a list in the elections officer section. Item (C) of the list was removed (indicated as struck through) and the consequent renumbering this necessitated is indicated in yellow as a change – the old lettering does not appear as struck-through.

**Motion - That Senate approve the indicated amendments to the Constitution of the Faculty of Pure and Applied Science Council.**

### **Meetings in 2010-2011:**

March

### **Summary of Activities:**

The committee was without a chair until February, which meant no meetings were held until March. At that meeting, we discussed the “Academic Integrity” section of the university calendar. We decided to survey heads to uncover the ways in which departments deal with issues of academic dishonesty. This was sent to faculty through an email in the Spring and most heads responded. We also created an online survey for faculty, however, this has not yet been carried out. The “Best Practices for Dealing Academic Dishonesty at Acadia” document continues to be a work in progress, and was to be based on the results of the surveys of heads and faculty.

Respectfully,

Phyllis Rippeyoung

Annual Report of the Senate Curriculum Committee (2010-11)

The Senate Curriculum Committee met on five occasions (19 October, 7 December, 6 January, 21 January, and 21 March). During these sessions, the committee analyzed curriculum submissions from the three faculties, some of which required multiple meetings including representations from the departments or schools concerned.

A new form was introduced for new program proposals, for programs that will require consideration by MPHEC. This form is arranged similarly to the MPHEC forms, thereby ensuring that the submissions are in line with the requirements from MPHEC.

New course proposals, course modification proposals, and course deletions were discussed, and in some cases clarification sought, before they were forwarded with the committee's recommendations to Senate for consideration. Particular emphasis was placed on submissions from the Schools of Music and Education, for a proposed Music Education five-year double-degree program and on significant changes in the B.Ed. program. The Music/Education double degree program depended on the outcome of Senate's decision on the B.Ed. changes, not all of which the committee endorsed before forwarding to Senate.

New majors were identified for the BBA programs and recommended to Senate.

Changes were also recommended in the nomenclature of co-op offerings.

Rob Raeside,  
Secretary

## **Notice of Motion from Dr. Daniel Silver, Director of the School of Computer Science:**

*Background:* Currently, it is not clear that a retired Acadia Professor can hold an adjunct and an emeritus position at the same time. Further to this, the privileges and responsibilities of the two positions overlap to some extent, but are potentially in conflict on items. For example, there is no mention of shared office/lab space for an adjunct (as per Emeritus Professors), however they are encouraged to apply for research funding. Emeritus professors are allowed to serve on undergraduate and graduate theses committees, but it is not clear what their role would be; adjuncts are clearly allowed to participate in research and teaching activities. A retired professor who holds an NSERC grant is normally an adjunct at Acadia. There is currently a sense that such a person cannot also be an emeritus professor, even though they may well deserve such a position.

Summary of information from the current University Documents:

Advantages of Adjuncts:

1. Listing in the relevant media in which university faculty are identified.
2. Participation in the research and teaching activities of the department/school as appropriate.
3. Access to department/school research facilities.
4. Ability to apply for external research funding.

Responsibilities of the Appointee:

1. Collaborate in the on-going research of a faculty member in the department/school.
2. Participate in the supervision of graduate, honours, and undergraduate research projects or theses.
3. Where possible, participate in the seminars, thesis committees and graduate committees of the department/school to an extent that is consistent with the needs of the department/school and with the on-going responsibilities of the appointee's regular employment.

Privileges of Emeritus Title:

- To be able to serve on undergraduate and graduate theses committees.
- To have their names listed in the Acadia University calendar.
- To be invited to Convocation and the academic procession.
- To have access to full faculty library privileges.
- To be provided with Datatel access by special request (e.g. holders of research grants).
- To be entitled to bear the title "Professor/Librarian/Archivist Emeritus".
- To have access to shared office/lab space should space be available, subject to annual review (key access to this space to be obtained by special request).

There appear to be no responsibilities for emeriti.

**Motion:**

**THAT the appropriate Senate Committee investigate the overlap of Adjunct Professor and Professor Emeritus positions as described above.**

Recommendation:

1. That the Emeritus position be defined as a subset of the privileges and responsibilities of an Adjunct Professor, plus additional privileges.
2. That an Adjunct Professor also be allowed to carry the Emeritus title.
